EVOFIT TRAINER

50 Superset Combinations That Actually Work

Organized by muscle group. Ready to program. Save time, maximize efficiency, and keep sessions moving.

CHEST + BACK | SHOULDERS + ARMS | QUADS + HAMSTRINGS | PUSH + PULL | FULL BODY

How to use this guide: Each superset lists Exercise A, Exercise B, target muscles, and recommended rest time. Perform A and B back-to-back with minimal rest between exercises. Rest the listed time before the next pair.

Section 1: Chest + Back

Antagonist pairs — ideal for hypertrophy and joint health. A pushes, B pulls.

1–10

#	EXERCISE A (PUSH / CHEST)	EXERCISE B (PULL / BACK)	TARGET MUSCLES	REST
1	**Barbell Bench Press** 4×8, moderate load	**Barbell Bent-Over Row** 4×8, pronated grip	Pec major, anterior delt / Lats, mid traps, rhomboids	90s
2	**Incline DB Press** 3×10–12, controlled eccentric	**Seated Cable Row** 3×10–12, neutral grip	Upper pec, anterior delt / Lats, biceps, rhomboids	75s
3	**Cable Chest Fly** 3×12–15, peak contraction	**Single-Arm DB Row** 3×12 each side	Pec major (inner) / Lats, teres major, rear delt	60s
4	**Push-Up (weighted)** 3×12–15, plate on back	**Pull-Up / Lat Pulldown** 3×8–10	Pec, triceps, front delt / Lats, biceps, lower traps	75s
5	**Decline DB Press** 3×10, lower chest focus	**T-Bar Row** 3×10, chest on pad	Lower pec, triceps / Lats, mid traps, rhomboids	90s
6	**Pec Deck Machine** 3×15, slow eccentric	**Reverse Pec Deck (Rear Delt)** 3×15, arms parallel	Pec major (inner) / Posterior delt, rhomboids	60s
7	**DB Floor Press** 3×12, elbow protection	**Face Pull** 3×15, rope attachment	Pec, triceps / Rear delt, external rotators, traps	60s
8	**Smith Machine Press** 4×8–10, controlled	**Wide-Grip Cable Pulldown** 4×10, full stretch	Pec, triceps / Lats (width focus), teres minor	75s
9	**Dips (chest-forward lean)** 3×8–12, bodyweight or weighted	**Chest-Supported DB Row** 3×12, incline bench	Lower pec, triceps / Lats, mid traps, rhomboids	90s
10	**DB Pullover (chest focus)** 3×12, full stretch	**Straight-Arm Pulldown** 3×15, cable station	Pec, serratus / Lats, teres major, core	60s

REST GUIDE: **60s** = Hypertrophy / conditioning **75s** = Strength-hypertrophy **90s** = Strength focus **120s+** = Heavy compound sets

Antagonist supersets allow one muscle to recover while the opposing muscle works — cutting rest time by up to 40% without sacrificing performance.

Section 2: Shoulders + Arms

Compound + isolation pairings. Drive shoulder development while maintaining arm pump.

11–20

#	EXERCISE A	EXERCISE B	TARGET MUSCLES	REST
11	**DB Overhead Press** 4×8–10, neutral grip	**Lateral Raise** 4×12–15, light load	Anterior/medial delt, upper trap / Medial delt, supraspinatus	75s
12	**Barbell Curl** 3×10, supinated grip	**Skull Crusher** 3×10, EZ bar	Biceps brachii, brachialis / Triceps long head, lateral head	60s
13	**Cable Lateral Raise** 3×15, low pulley	**Rear Delt Cable Fly** 3×15, cross-body	Medial deltoid / Posterior deltoid, external rotators	45s
14	**Incline DB Curl** 3×12, long head stretch	**Overhead DB Tricep Extension** 3×12, long head focus	Biceps long head / Triceps long head (stretched position)	60s
15	**Arnold Press** 3×10, pronation through movement	**Upright Row** 3×12, wide grip	All three delt heads / Medial delt, upper trap, biceps	75s
16	**Hammer Curl** 3×12, neutral grip	**Tricep Pushdown (rope)** 3×15, flare at bottom	Brachioradialis, brachialis / Triceps lateral + medial heads	60s
17	**DB Front Raise** 3×12, alternating	**Bent-Over Rear Delt Raise** 3×15, hip-hinge position	Anterior deltoid / Posterior delt, rhomboids	45s
18	**Preacher Curl (machine)** 3×10–12, slow eccentric	**Tricep Dips (bench)** 3×12–15, bodyweight	Biceps short head, brachialis / Triceps all heads, anterior delt	60s
19	**Landmine Press** 3×10 each side	**Cable Face Pull** 3×15, rope at eye level	Anterior delt, upper chest / Rear delt, external rotators	60s
20	**Concentration Curl** 3×12 each arm	**Single-Arm Cable Pushdown** 3×12 each arm	Biceps peak contraction / Triceps lateral head isolation	45s

Section 3: Quads + Hamstrings

Lower body antagonist pairs. Balanced knee joint development and injury prevention.

21–30

#	EXERCISE A (QUADS / KNEE EXTENSION)	EXERCISE B (HAMSTRINGS / KNEE FLEXION)	TARGET MUSCLES	REST
21	**Barbell Back Squat** 4×6–8, strength focus	**Romanian Deadlift** 4×8–10, full hip hinge	Quads, glutes / Hamstrings, glutes, erectors	120s
22	**Leg Extension (machine)** 3×12–15, slow eccentric	**Leg Curl (machine)** 3×12–15, same weight	Quadriceps (all 4 heads) / Hamstrings (biceps femoris)	60s
23	**Hack Squat** 3×10, narrow stance	**Stiff-Leg Deadlift (DB)** 3×12, minimal knee bend	Vastus medialis, rectus femoris / Hamstrings, glutes	90s
24	**Walking Lunges** 3×12 steps, bodyweight or DB	**Nordic Hamstring Curl** 3×6–8, eccentric focus	Quads, glutes, balance / Hamstrings	90s

			(eccentric strength)	
25	**Bulgarian Split Squat** 3×10 each leg	**Single-Leg Curl (machine)** 3×12 each leg	Quads, glutes (unilateral) / Hamstrings (unilateral isolation)	**90s**

Section 3 (continued): Quads + Hamstrings

26–30

#	EXERCISE A	EXERCISE B	TARGET MUSCLES	REST
26	**Goblet Squat** 3×15, DB or KB at chest	**Glute Bridge** 3×15, barbell or bodyweight	Quads, glutes, core / Glutes, hamstrings, hip extensors	60s
27	**Step-Up (weighted)** 3×12 each leg	**Good Morning** 3×12, light-moderate	Quads, glutes (functional) / Hamstrings, erectors, glutes	75s
28	**Sissy Squat** 3×10, quad isolation	**Lying Leg Curl** 3×12, full range	Rectus femoris (stretched) / Biceps femoris, semitendinosus	60s
29	**Leg Press (narrow)** 3×10–12, quad emphasis	**Seated Leg Curl** 3×12, long muscle length	Quads (all), glutes / Hamstrings at hip extended position	75s
30	**Wall Sit** 3×45–60s, isometric hold	**Hamstring Slider Curl** 3×10, sliders on floor	Quads (isometric endurance) / Hamstrings, glutes (eccentric)	60s

Section 4: Push + Pull (Upper Body)

Full upper body efficiency — one push, one pull. Perfect for time-limited sessions.

31–40

31	**DB Shoulder Press** 4×8–10, seated	**Barbell Row** 4×8–10, supinated	Shoulders, triceps / Lats, biceps, rhomboids	90s
32	**Push-Up (feet elevated)** 3×15, decline variation	**Inverted Row** 3×15, underhand grip	Upper pec, anterior delt / Lats, mid traps, biceps	60s
33	**Bench Press (DB)** 3×10, neutral grip	**Neutral-Grip Chin-Up** 3×8–10, full dead hang	Pec major, triceps / Lats, biceps, brachialis	90s
34	**Cable Chest Press (standing)** 3×12, staggered stance	**Single-Arm Cable Row (standing)** 3×12 each side	Pec, anterior delt, core / Lats, rear delt, core	60s
35	**Floor Press** 3×10, tricep emphasis	**Renegade Row** 3×8 each arm, DB plank	Pec, triceps / Lats, core, stabilisers	75s

EvoFit Trainer's 1,344-exercise library means you'll always find the right substitution when equipment isn't available.

Section 4 (continued): Push + Pull

36–40

#	EXERCISE A	EXERCISE B	TARGET MUSCLES	REST
36	**Overhead Press (machine)** 3×10–12	**Lat Pulldown (machine)** 3×10–12, same stack	Delts, triceps / Lats, biceps — same machine station	60s
37	**Incline Push-Up** 3×15, hands elevated	**TRX Row** 3×15, feet forward lean	Lower pec, triceps / Lats, rear delt — bodyweight only	45s
38	**KB Press (half-kneeling)** 3×10 each side	**KB Bent-Over Row** 3×12 each side	Delt, triceps, core / Lats, rhomboids (KB only session)	60s
39	**Band Pull-Apart (horizontal)** 3×20, shoulder health	**Band Press (chest)** 3×20, standing	Rear delt, traps / Pec, anterior delt — bands only, warm-up	30s
40	**Barbell Overhead Press (seated)** 4×6–8, strength focus	**Weighted Pull-Up** 4×5–8, belt + plate	Delts, triceps, upper trap / Lats, biceps — strength pair	120s

Section 5: Full Body Conditioning

Upper + lower pairings. High metabolic demand. Perfect for fat loss phases.

41–50

41	**Goblet Squat** 3×12, DB at chest	**DB Row** 3×12, hip-hinged position	Quads, glutes, core / Lats, rhomboids — zero equipment swap needed	60s
42	**Deadlift** 4×5, heavy load	**Bench Press** 4×8, moderate load	Full posterior chain / Pec, triceps — classic compound pair	120s
43	**Box Jump** 3×8, explosive intent	**Push-Up (AMRAP)** 3 sets, max reps	Glutes, quads (power) / Pec, triceps (power-endurance)	90s
44	**KB Swing** 3×15, hip hinge power	**Push Press (BB or DB)** 3×10, leg drive allowed	Glutes, hamstrings, core / Delts, triceps, legs (drive)	90s
45	**Front Squat** 3×8, bar on front rack	**Pendlay Row** 3×8, bar to floor each rep	Quads, upper back (posture) / Lats, traps — postural balance	90s
46	**Reverse Lunge (DB)** 3×10 each leg	**Seated Cable Row** 3×12, wide-grip	Quads, glutes, balance / Lats, mid traps, rhomboids	75s
47	**Trap Bar Deadlift** 4×6, quad + hip focus	**Incline DB Press** 4×10, upper chest	Full body posterior + quads / Upper pec, anterior delt	120s
48	**Step-Up + Knee Drive** 3×12 each leg, explosive	**Chin-Up (bodyweight)** 3×max reps, full hang	Glutes, quads (unilateral) / Biceps, lats — bodyweight	75s
49	**Sumo Deadlift (DB)** 3×12, inner thigh focus	**Arnold Press (standing)** 3×10, all delt heads	Inner quad, adductors, glutes / All deltoid heads, traps	75s

50	**Power Clean (light)** 3×5, technique focus	**Weighted Dip** 3×8, belt + plate	Full body power + triple extension / Chest, triceps, dip pattern	**120s**

All 50 of these supersets are programmable in EvoFit Trainer's program builder. Your clients get the exact plan. You get the credit.

READY TO PROGRAM FASTER?

Build Every Superset in EvoFit Trainer in Under 60 Seconds

Stop copy-pasting programs into spreadsheets. EvoFit Trainer's program builder lets you create and assign supersets, sets, reps, and RPE targets — then send it directly to your client's phone.

- ✓ **1,344 exercises** — every compound, isolation, and accessory lift you need
- ✓ **Superset grouping** — pair exercises in your program builder with one click
- ✓ **RPE + RIR logging** — clients log effort on every set so you see real data
- ✓ **Progression tracking** — automatic suggestions when it's time to add load or volume
- ✓ **Free for your first 3 clients** — no credit card, no time limit
