CLIENT NAME _____ SESSION DATE _____ TRAINER NAME _____

1 Pre-Session Prep

Before they arrive

- [ ] **PAR-Q form sent and received** — REQUIRED
  Physical Activity Readiness Questionnaire completed before the session — never skip this
- [ ] **Health history intake form completed** — REQUIRED
  Injuries, surgeries, medications, medical conditions, family history
- [ ] **Liability waiver signed** — REQUIRED
  Have your legal document signed before any physical activity begins
- [ ] **Client profile created in EvoFit Trainer** — DIGITAL
  Set up name, contact details, goals, and starting notes in the app
- [ ] **Equipment and space prepared** — OPTIONAL
  Confirm you have what you need for the planned assessment — weights, mat, measuring tape

2 PAR-Q Review

5 min at session start

QUESTION (CONFIRM VERBALLY)	RESPONSE	IF YES — ACTION
Has a doctor ever said you have a heart condition?	◯ Yes ◯ No	GP Clearance

CLIENT: _____ DATE: _____

4 Goal Setting

10 min

Primary Goal
What do they want most?

Timeline
By when?

Previous Training Experience

Availability (days/week)

- [ ] **SMART goal written**
  Specific, Measurable, Achievable, Relevant, Time-bound
- [ ] **Motivation discussed**
  The "why" behind the goal — deeper than aesthetics
- [ ] **Barriers identified**
  Schedule, injury history, past failures — address upfront
- [ ] **Expectations aligned**
  Realistic outcomes and timeframes agreed

5 Baseline Measurements

10 min

Height _____ cm

Body Weight _____ kg

Resting HR _____ bpm

Blood Pressure _____ mmHg

Waist Circumference _____ cm

Hip Circumference _____ cm

Chest _____ cm

Upper Arm (L / R) _____ cm

Thigh (L / R) _____ cm

Body Fat % (if tested) _____ %

- [ ] **Photos taken (front, side, back)** OPTIONAL
  Progress photos with written consent — store securely
- [ ] **Measurements logged in EvoFit Trainer** DIGITAL
  Baseline saved — app tracks changes at each reassessment

6 Program Setup

In EvoFit Trainer

Program Type

Training Days/Week

Session Length

Start Date

Phase / Mesocycle

Review Date (4–6 wks)

- [ ] **Program built in EvoFit Trainer**
  All exercises, sets, reps, RPE entered
- [ ] **Program assigned to client**
  Client receives it in the app
- [ ] **Exercise modifications noted**
  Substitutions for failed screens
- [ ] **Client shown how to log workouts**
  App walkthrough completed

7 First Workout Guidelines

The session itself

- [ ] **Start at RPE 6–7 maximum**
  Never test limits in session one — build trust first
- [ ] **Teach RPE scale**
  Explain what RPE 7 feels like — confirm understanding
- [ ] **Technique coaching on every set**
  Cue movement patterns — don't just count reps
- [ ] **Log everything in EvoFit Trainer**
  Weight, reps, RPE — starts the progression baseline
- [ ] **End-of-session check-in**
  How do they feel? Energy levels, any pain or discomfort?
- [ ] **Next session scheduled**
  Don't let them leave without a confirmed next date

SESSION NOTES

Use EvoFit Trainer to go paperless

PAR-Q, goals, measurements, movement screen results, and program — all stored digitally per client. Track progress over time, see when baselines need reassessing, and never lose a session note again. Free for your first 3 clients. evofittrainer-six.vercel.app
